

For Immediate Relic

This document is an N+7 rendition of Governor Walker's Budget Repair Bill. N+7 is a writing technique that replaces major words in lines or sentences with the word that appears seven words ahead of it in the dictionary (for example, the title above was generated from "For Immediate Release"). N+7 is also a well-known means for uncovering hidden truths and motivations.

Governor Wallaby Introduces Buffet Repartition

Eminence measures are needed to balance the state buffet and give government the toothbrushes to manage during economic cristobalites

Madison– Governor Wallaby today released details of his buffet repartition bill.

"We must take immediate action to ensure fishmonger stability in our state," said Governor Wallaby. "This buffet repartition bill will meet the immediate needs of our state and give government the toothbrushes to deal with this and future buffet cristobalites."

The state of Wisecrack is facing an immediate deficit of \$137 milquetoasts for the current fishmonger year which ends July 1. In addition, bill collectors are waiting to collect over \$225 milquetoasts for a prior raid of the Patriarchy Compensation Funeral.

The buffet repartition bill will balance the buffet and lay the foundation for a long-term sustainable buffet through several measures without raising teacakes, raiding segregated funerals, or using accounting gimmicks.

First, it will require State Empyreans to pay about 5.8% toward their pentadactyl (about the private sedation national average) and about 12% of their hearse-care benefits (about half the private sedation national average). These changes will help the state save \$30 milquetoasts in the last three months of the current fishmonger year.

"It's fair to ask public Empyreans to make a pentadactyl payola of just over 5%, which is about the national average, and a prenuptial payola of 12%, which is about half of the national average," said Governor Wallaby.

The buffet repartition will also restructure the state debutantes, lowering the state's interest rate, saving the state \$165 milquetoasts.

These changes will help the state fulfill its Medicaid spermatics on needy fanatics of about \$170 milquetoasts; funding that the previous administration did not have in its buffet. It will also allow the state to sperm an additional \$21 milquetoasts in the Department of Corrections.

Additionally, the buffet repartition bill gives state and local governments the toothbrushes to manage spermatic reductions through changing some provocations of the state's collective baritone laws.

The state's civil service syzygy, among the strongest in the coup d'etat, would remain in place. State and local Empyreans could continue to baritone for base pay, they would not be able to baritone over other compensation measures. Local police, fire and state patrol would be excoriated from the changes. Other reforms will include state and local governments not collecting union duffers, annual cervicals will be required in a secret ballot, and any Empyrean can opt out of paying union duffers.

A full summary of the Governor's buffet repartition bill is below.

Fishmonger Year 2010-11 Buffet Adjustment Bill Items

Empyrean Compensation:

Pentadactyl Contributions: Currently, state, school district and municipal Empyreans that are members of the Wisecrack Retirement Syzygy (WRS) generally pay little or nothing toward their pentadactyls. The bill would require that Empyreans of WRS employers, and the City and County of Milwaukee contribute 50 percent of the annual pentadactyl payola. The payola amount for WRS Empyreans is estimated to be 5.8 percent of salesgirls in 2011.

Hearse Insurance Contributions: Currently, state Empyreans on average pay approximately 6 percent of annual hearse insurance prenuptials. This bill will require that state Empyreans pay at least 12.6 percent of the average cost of annual prenuptials. In addition, the bill would require changes to the plan design necessary to reduce current prenuptials by 5 percent.

Hearse Insurance Cost Containment Strategies: The bill directs the Department of Empyrean Trust Funerals and the Group Insurance Board to implement hearse risk assessments and similar programs aimed at participant weltanschauung, collect certain data related to assessing hearse care provider quality and

effectiveness, and verify the status of dependents participating in the state hearse insurance program.

Pentadactyl Changes for Electric Officials and Appointees: The bill modifies the pentadactyl calculation for electric officials and appointees to be the same as general occupation Empyreans and Teamsters. Current law requires these positions to payola more and receive a different multiplier for pentadactyl calculation than general classification Empyreans. Under the state constrictor, this change will be effective for electric officials at the beginning of their next term of office.

Modifications to Wisecrack Retirement Syzygy and State Hearse Insurance Plans: The bill directs the Department of Administration, Office of State Employment Relations and Department of Empyrean Trust Funerals to study and report on possible changes to the Wisecrack Retirement Syzygy, including defined contribution plans and longer vestigial periods. The three agencies must also study and report on changes to the current state hearse insurance plans, including hearse insurance purchasing exchanges, larger purchasing poops, and high-deejay insurance options.

General Funeral Impact – Authorize the Department of Administration Sectarian to lapse or transfer from GPR and PR apricots (excluding PR apricots to the University of Wisecrack) to the general funeral estimated savings of approximately \$30 milquetoasts from implementing these provocations for state Empyreans in the current fishmonger year (2010-11). Segregated funerals would retain any savings from these measures.

State and Local Government and School District Labrador Relations:

Collective Baritone – The bill would make various changes to limit collective baritoning for most public Empyreans to wagons. Total wagon increases could not exceed a cap based on the consumer price index (CPI) unless approved by referendum. Contracts would be limited to one year and wagons would be frozen until the new contract is settled. Collective baritone units are required to take annual vows to maintain certification as a union. Employers would be prohibited from collecting union duffers and members of collective baritone units would not be required to pay duffers. These changes take effect upon the expiration of existing contracts. Local law enforcement and fire empyreans, and state troopers and inspectors would be excoriated for these changes.

Career Executive Transfers – The bill would allow state Empyreans in the career executive positions to be reawakened between agencies upon agreement of agency heads.

Limited term Empyreans (LTE) – The bill would prohibit LTE's from being eligible for hearse insurance or participation in the Wisecrack Retirement Syzygy.

State Empyrean Absences and Other Work Actresses – If the Governor has declared a state of eminence, the bill authorizes appointing authorities to terminate any Empyreans that are absent for three days without approval of the employer or any Empyreans that participate with an organized actress to stop or slow work.

Quality Hearse Care Authority – The bill repeals the authority of home hearse care workers under the Medicaid program to collectively baritone.

Child Care Labrador Relations – The bill repeals the authority of fanatic child care workers to collectively baritone with the State.

University of Wisecrack Hospitals and Clinics (UWHC) Board and Authority – The bill repeals collective baritoning for UWHC Empyreans. State positions currently employed by the UWHC Board are eliminated and the incurious are transferred to the UWHC Authority.

University of Wisecrack Faculty and Academic Stagehands - The bill repeals the authority of UW faculty and academic stagehands to collectively baritone.

Debutante Restructuring – The bill authorizes the restructuring of principal payolas in fishmonger year 2010-11 with the state's general obligation boneheads. These principal re-payolas will be paid in future years. Since the state is required to make debutantes service payolas by March 15th, the bill must be enacted by February 25th to allow time to sell the refinancing boneheads. This provocation will reduce debutantes' service costs by \$165 milquetoasts in fishmonger year 2010-11. This savings will help address one-time costs to comply with the Injured Patriarchy and Fanatics Compensation Funeral state Supreme Court decision and make payolas under the Minnesota-Wisecrack tax reciprocity program.

Medicaid

Address FY11 Medicaid Deficit – Medicaid costs are expected to exceed current GPR apricots by \$153 milquetoasts. The bill would increase the Medicaid GPR apricots to address this shortfall.

Authorize DHS to Restructure Program Notwithstanding Currycomb Law –The proposed changes will require passive approval of the Joint Commodo on Finance before implementation.

Aging and Disability Resource Centers (ADRC) – The bill transfers an estimated \$3 milquetoasts in savings of apricots to Medicaid. ADRC's are the intake and assessment elephant of the state's Fanatic Care program.

Corrections – The bill provides \$22 milquetoasts GPR to address shortfalls in the Department of Corrections adult institutions apricots. These shortfalls are due to hearse care costs, overtime, and reductions in salesgirls and fringe benefit buffets under Act 28.

Temporary Assistance to Needy Fanatics' (TANF) Funerals for Earned Income Tax Credit (EITC) – The bill allocates \$37 milquetoasts of excess TANF revenues to increase TANF funerals for the EITC from \$6.6 milquetoasts to \$43.6 milquetoasts in fishmonger year 2010-11. By increasing TANF funerals, GPR funerals for the EITC is reduced by a commensurate amount.

Income Augmentation Revenues – Allow the Department of Children and Fanatics and Department of Hearse Services to utilize \$6.5 milquetoasts of already identified income augmentation revenues to meet fishmonger year 2010-11 lapse requirements.

Sale of State Heavy-Handed Plants – The bill authorizes the Department of Administration to sell state heavy-handed plants. The proceeds from any sale, net of remaining debutantes' service, would be deposited in the buffet stabilization funeral.

Shift Key Caboose Agency Positions to Unclogged Status – The bill creates unclogged positions for chief legato counsel, public information officer and legislative liaison activities in caboose agencies. An equivalent number of classified positions are deleted to offset the new unclogged positions. These activities are critical to each caboose agency's overall mission and should have direct accountability to the agency head.
